

SI LA SPATIONAUTE  
NE PEUT PAS PARLER  
C'EST QU'IL N'Y A  
PAS DE SUPPORT MATÉRIEL  
POUR QUE LE SON PUISSE  
SE PROPAGER

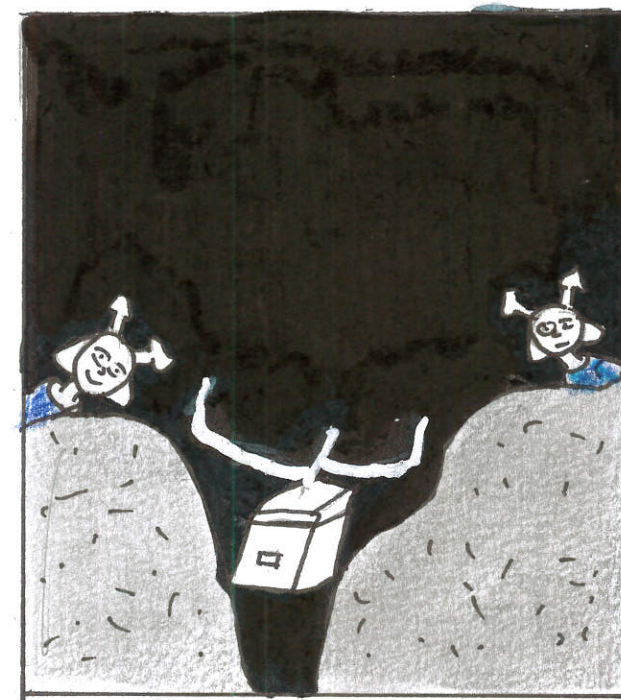

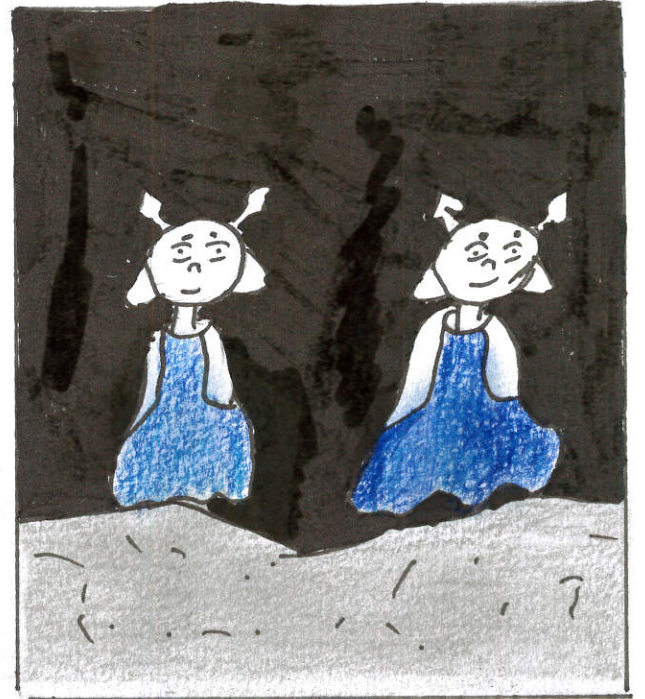

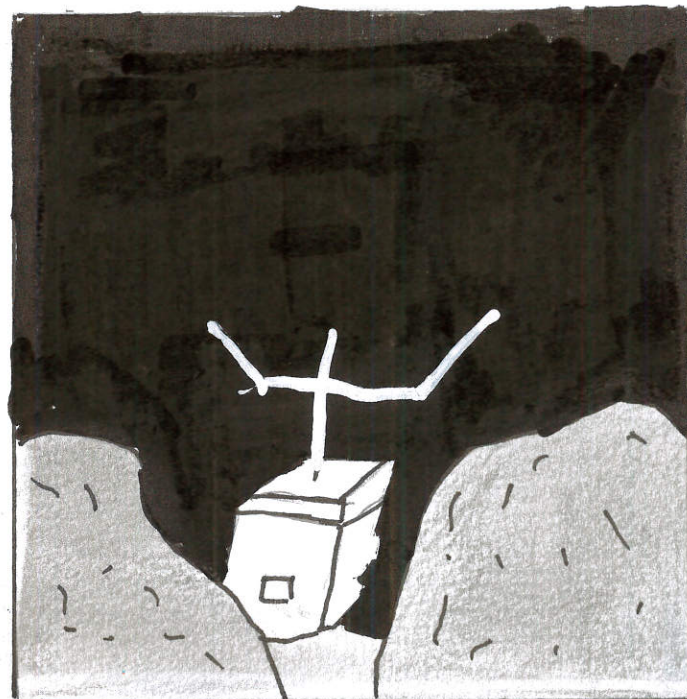

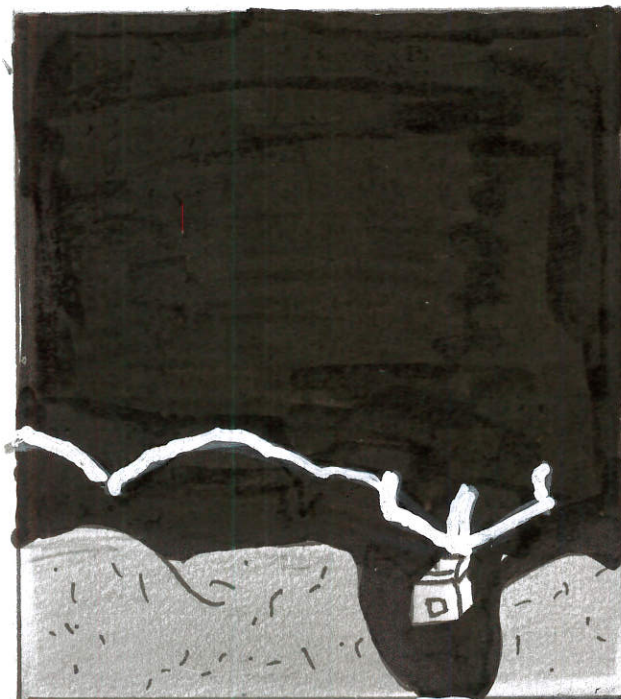

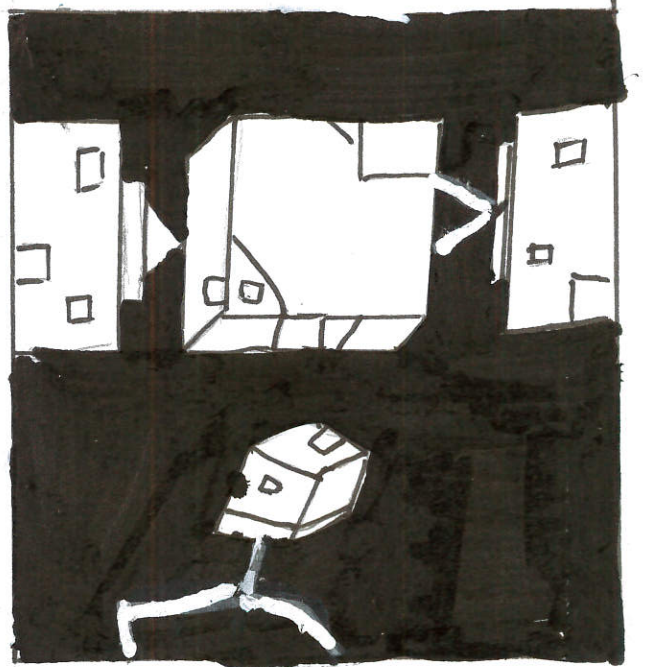

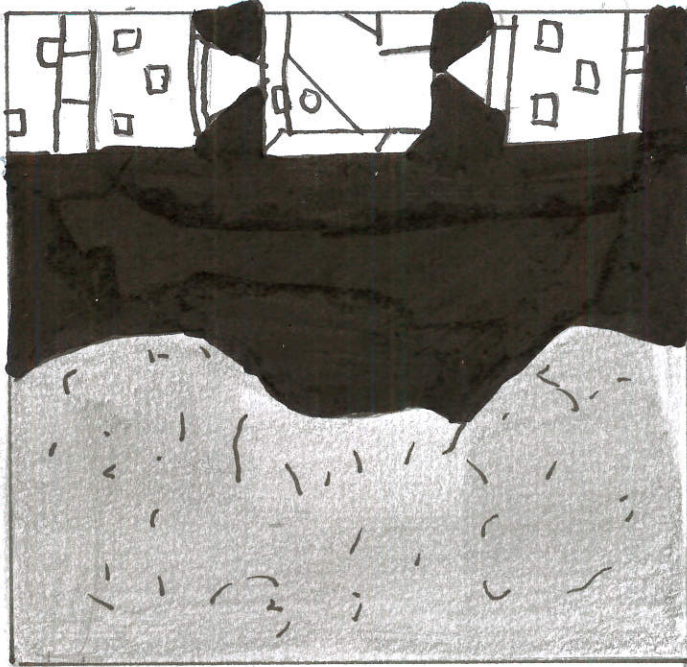

En ISLANDE

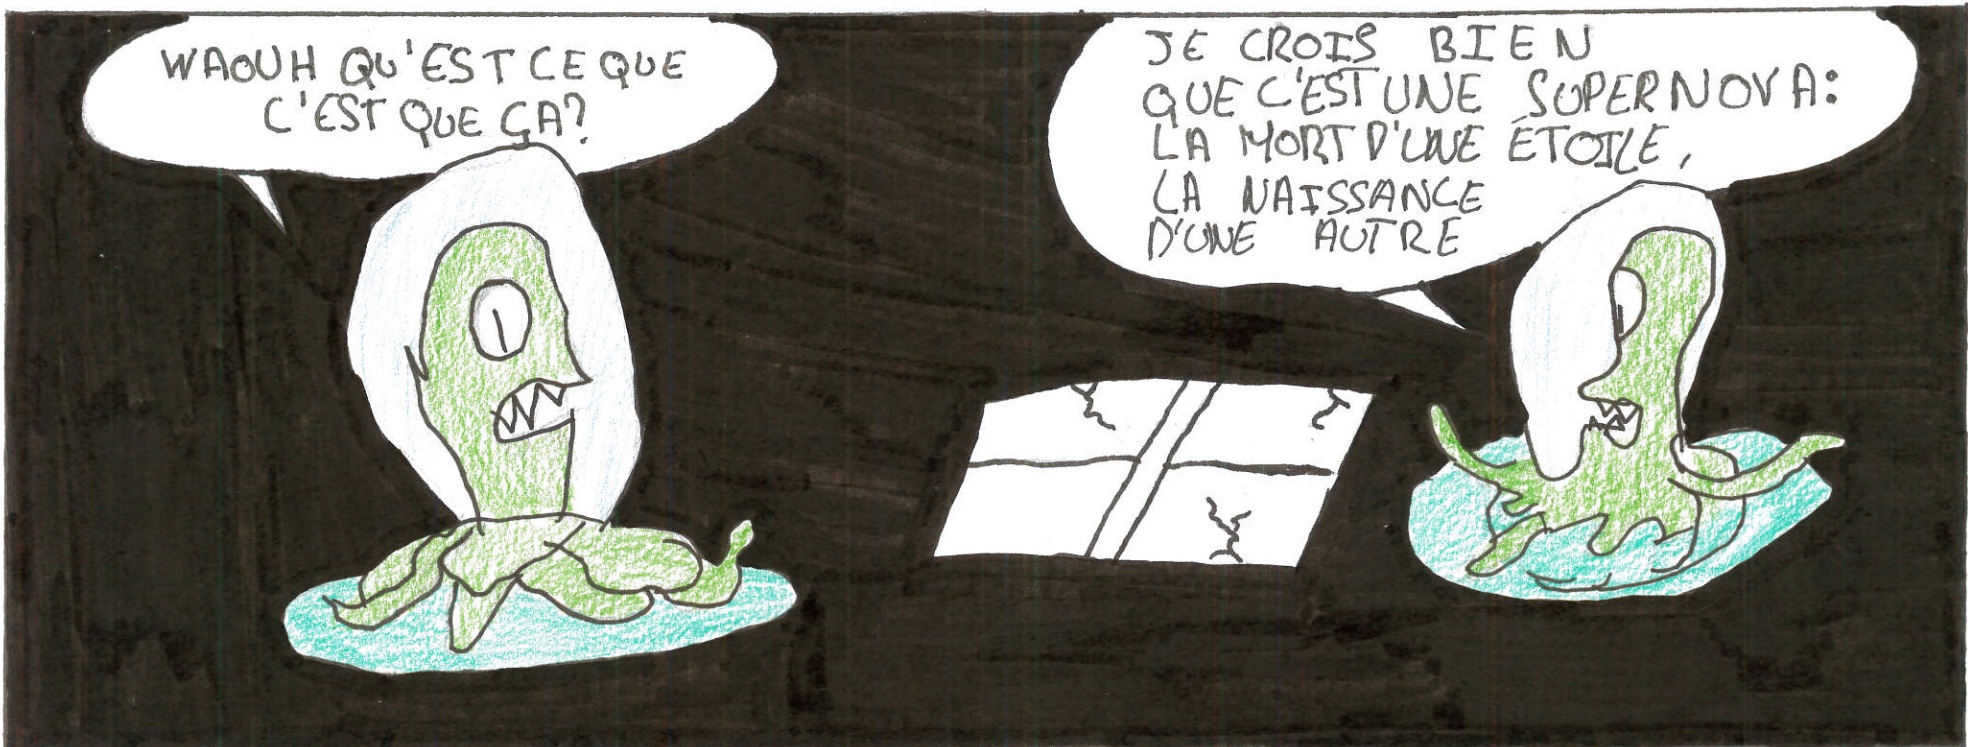

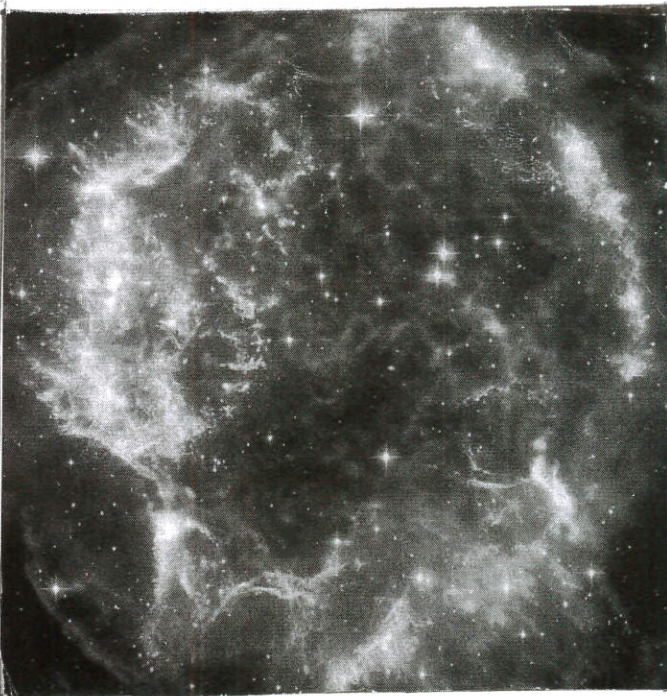

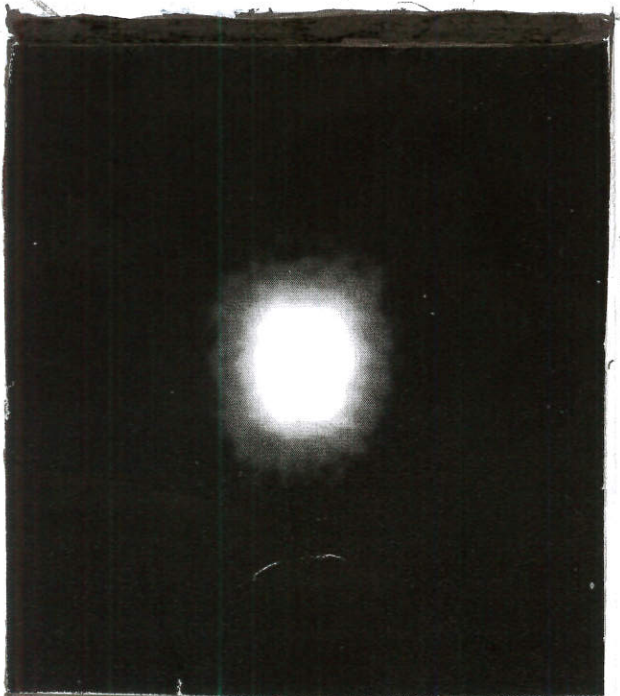

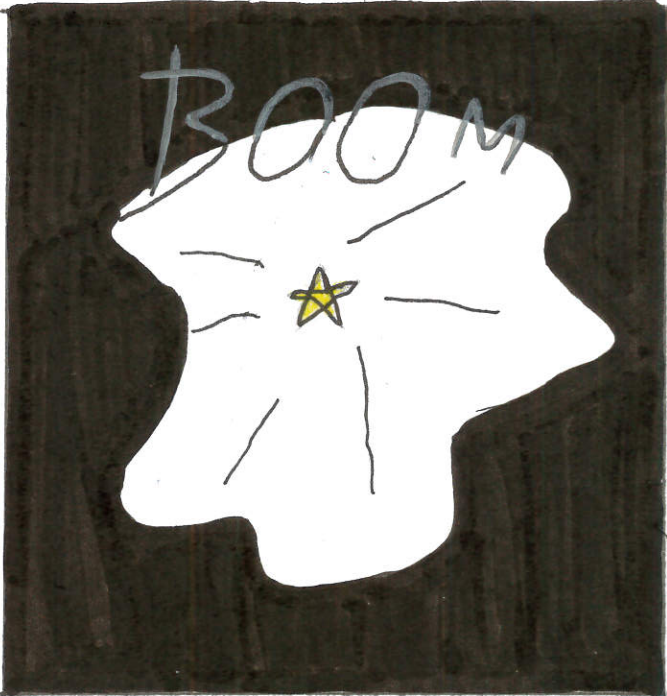

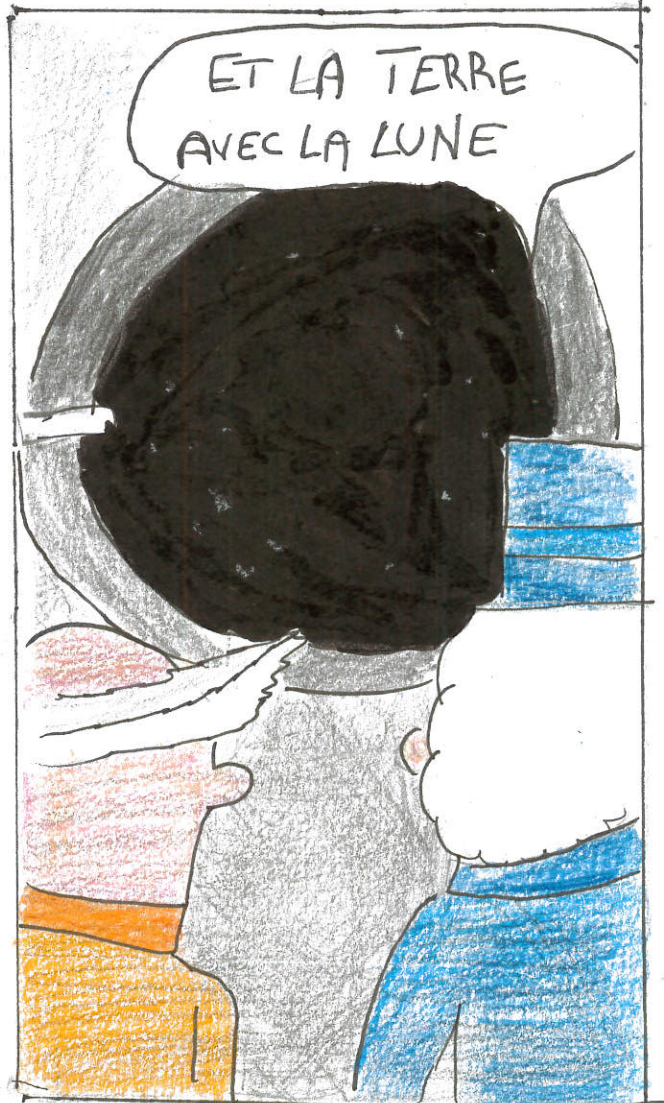

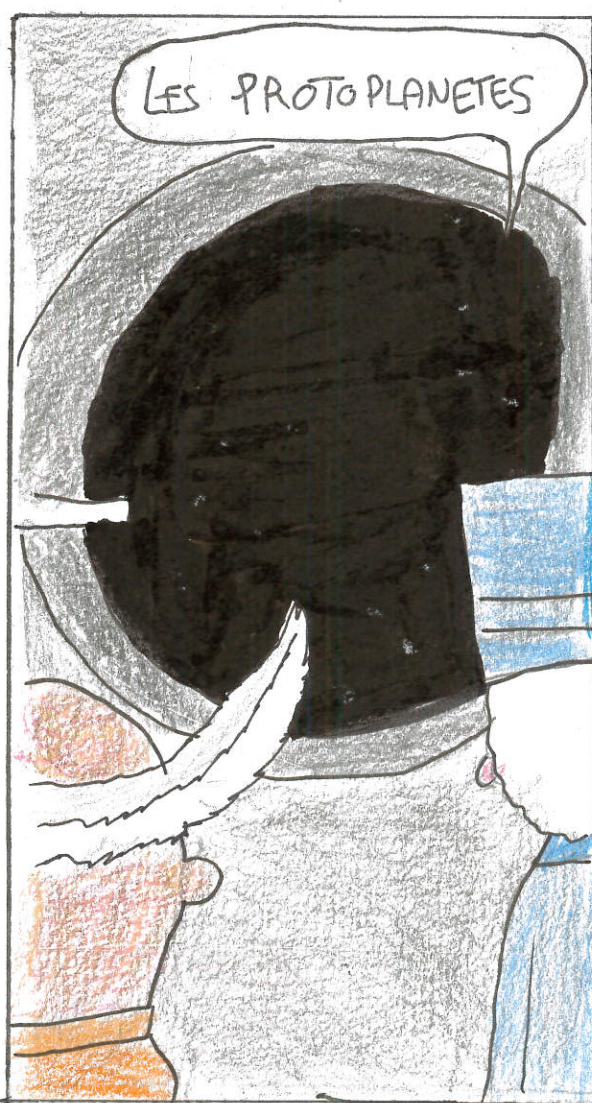

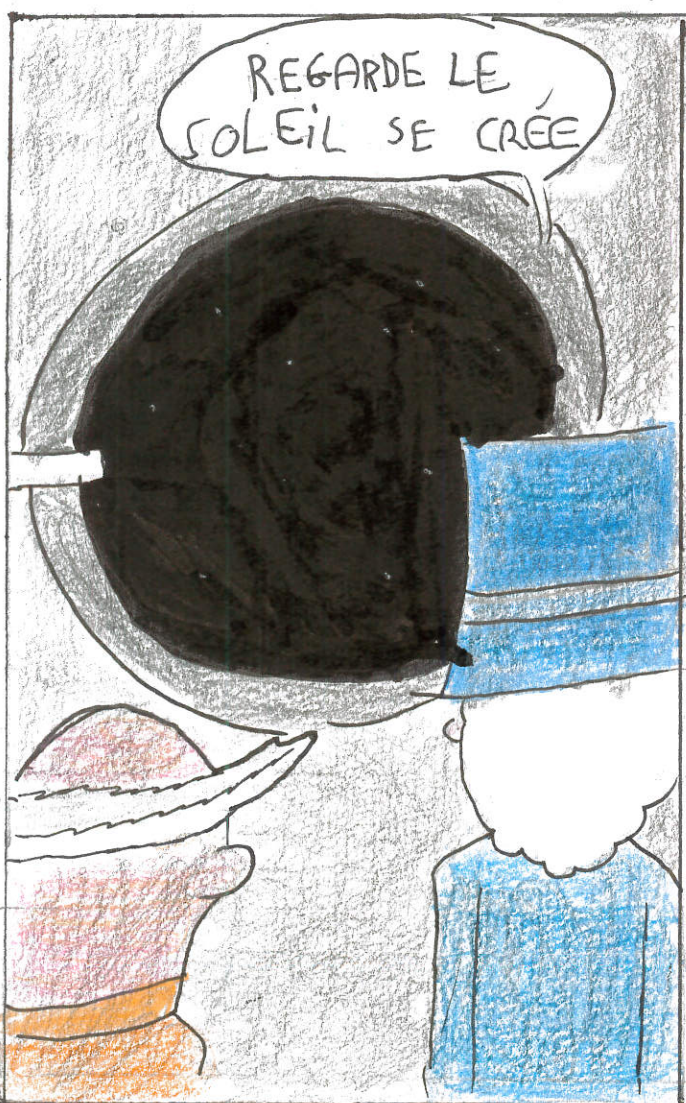

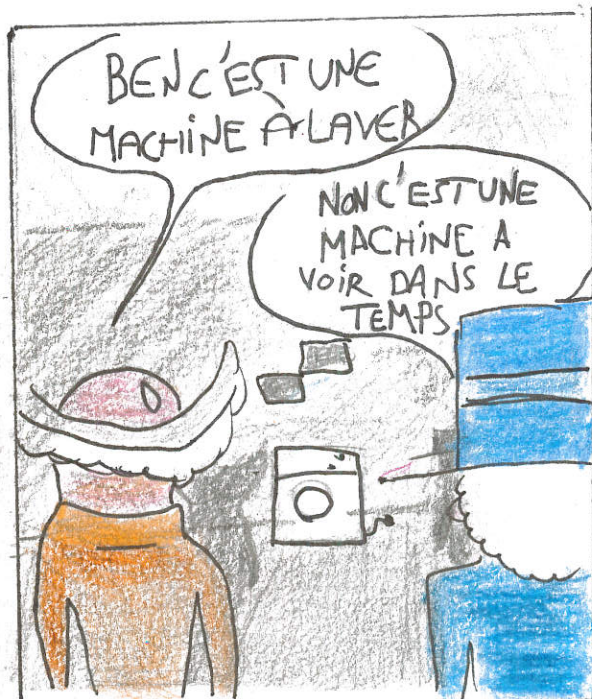

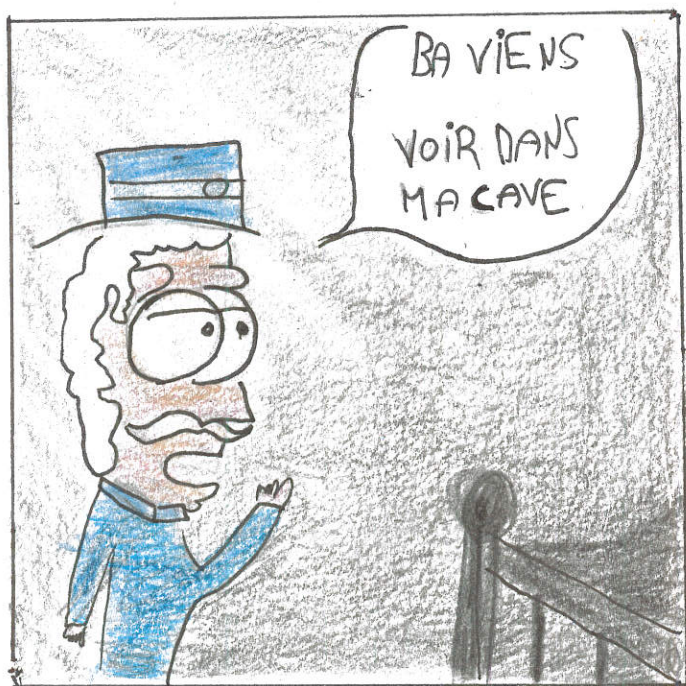

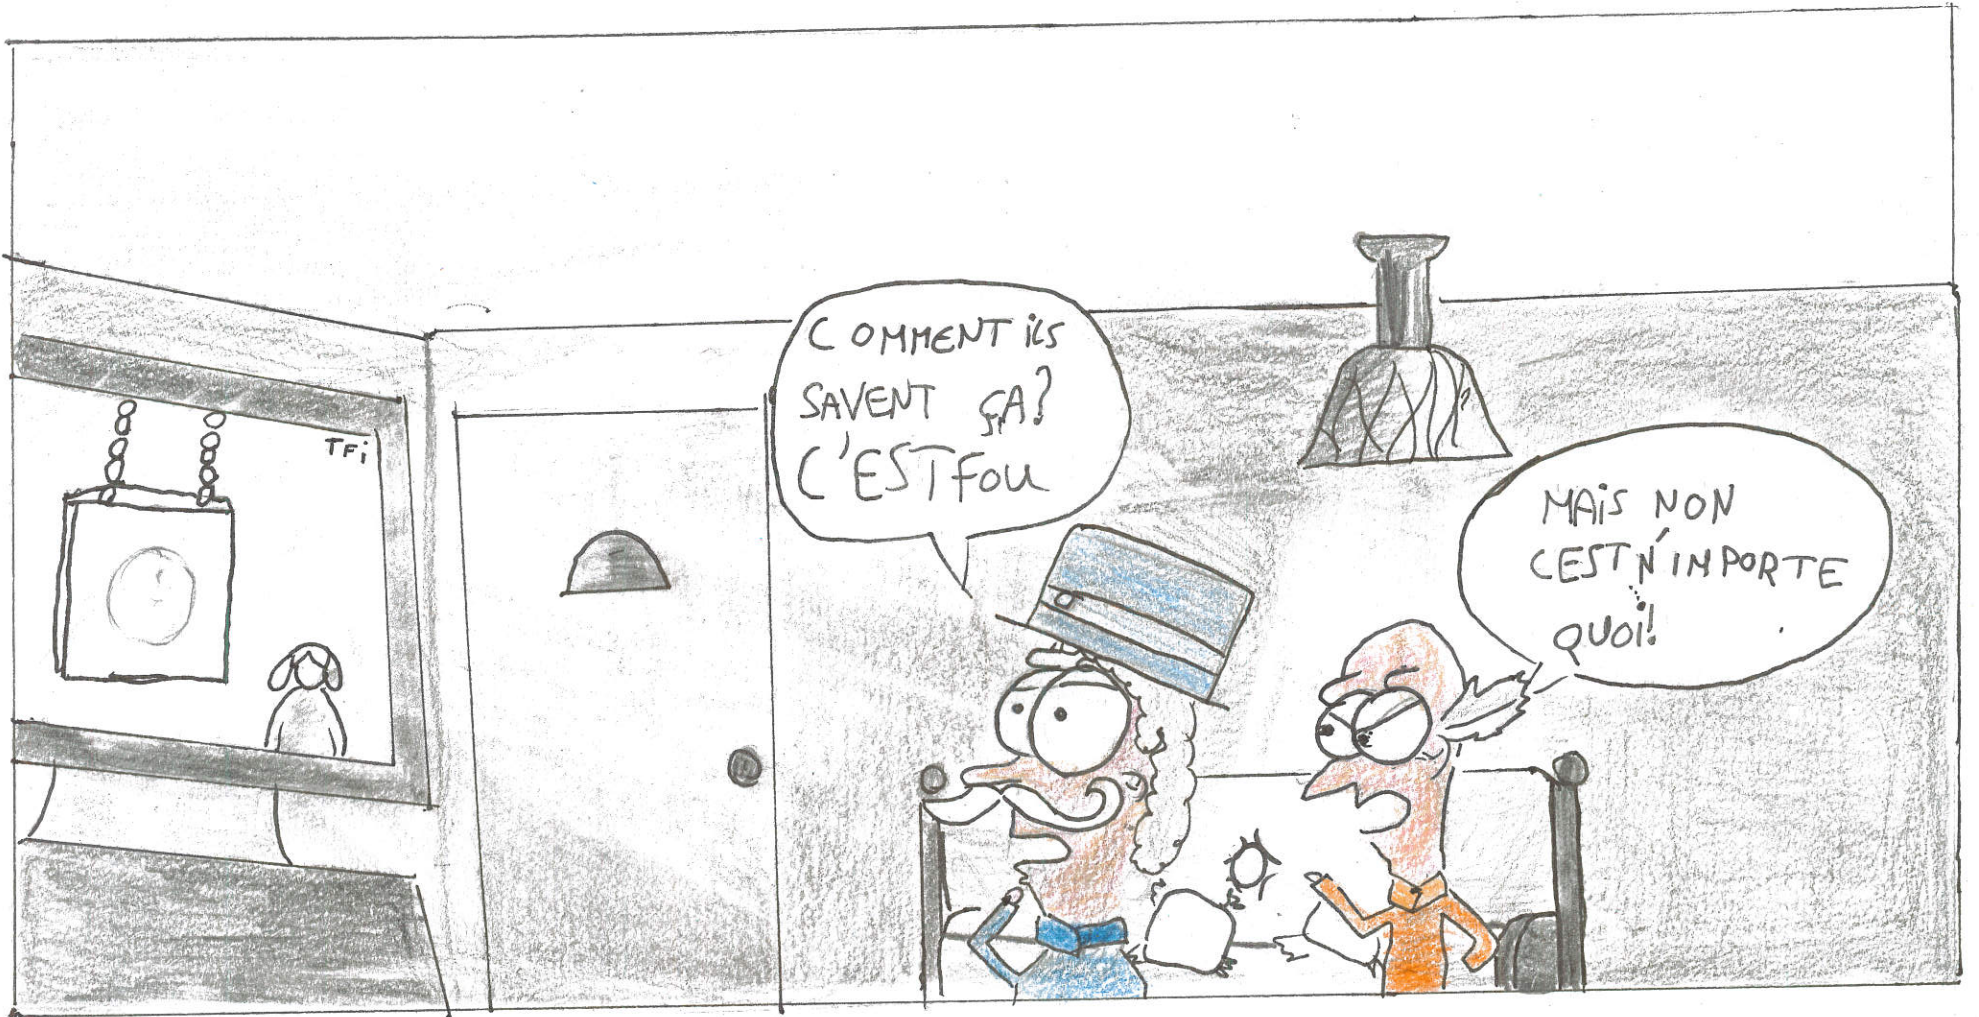

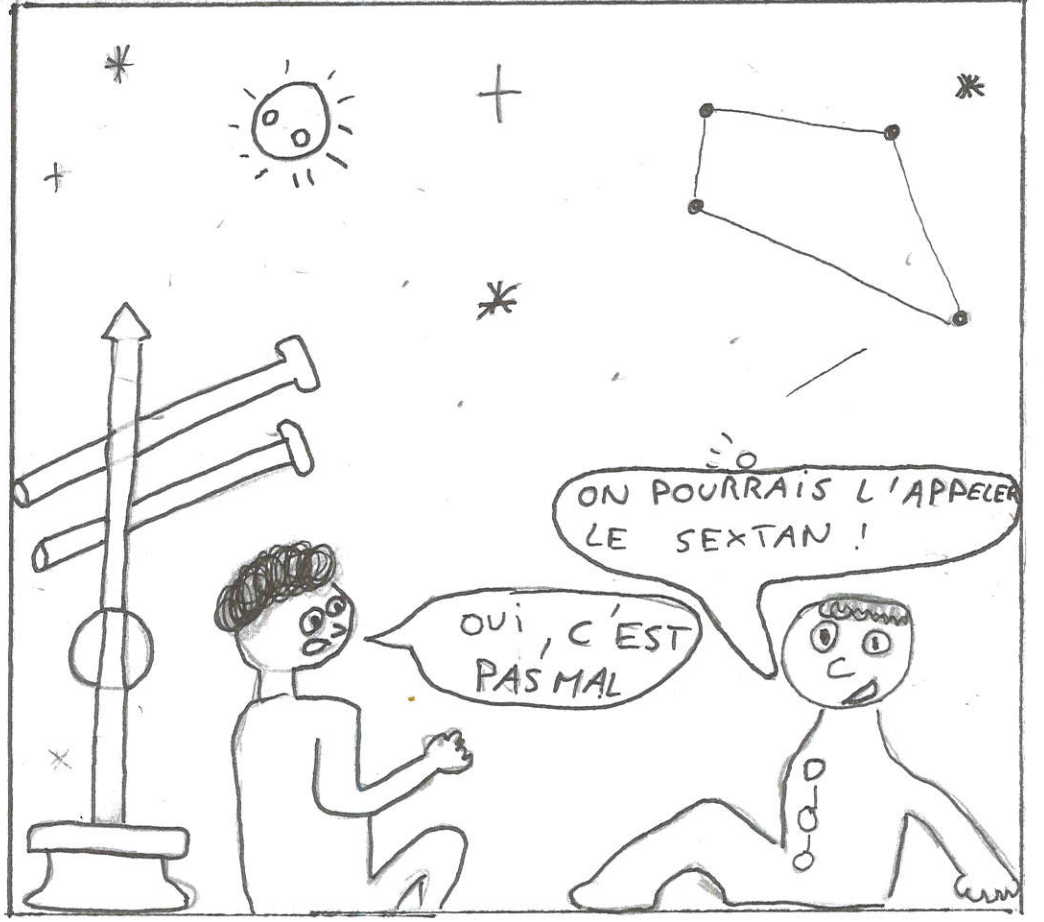

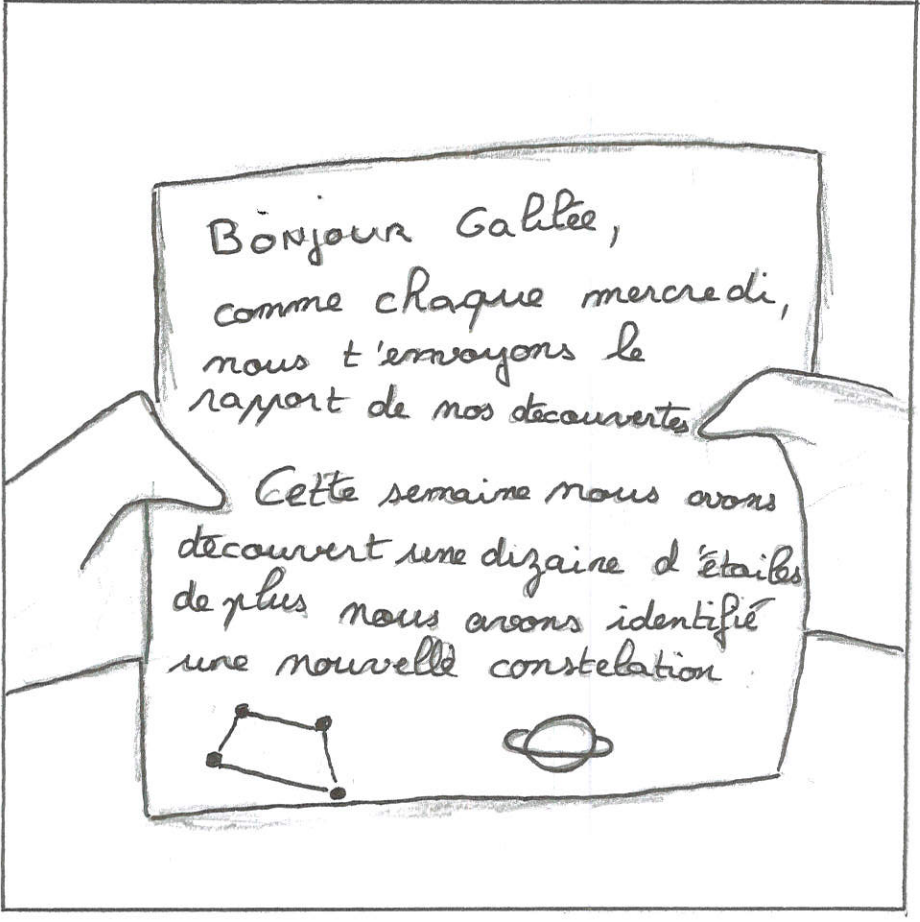

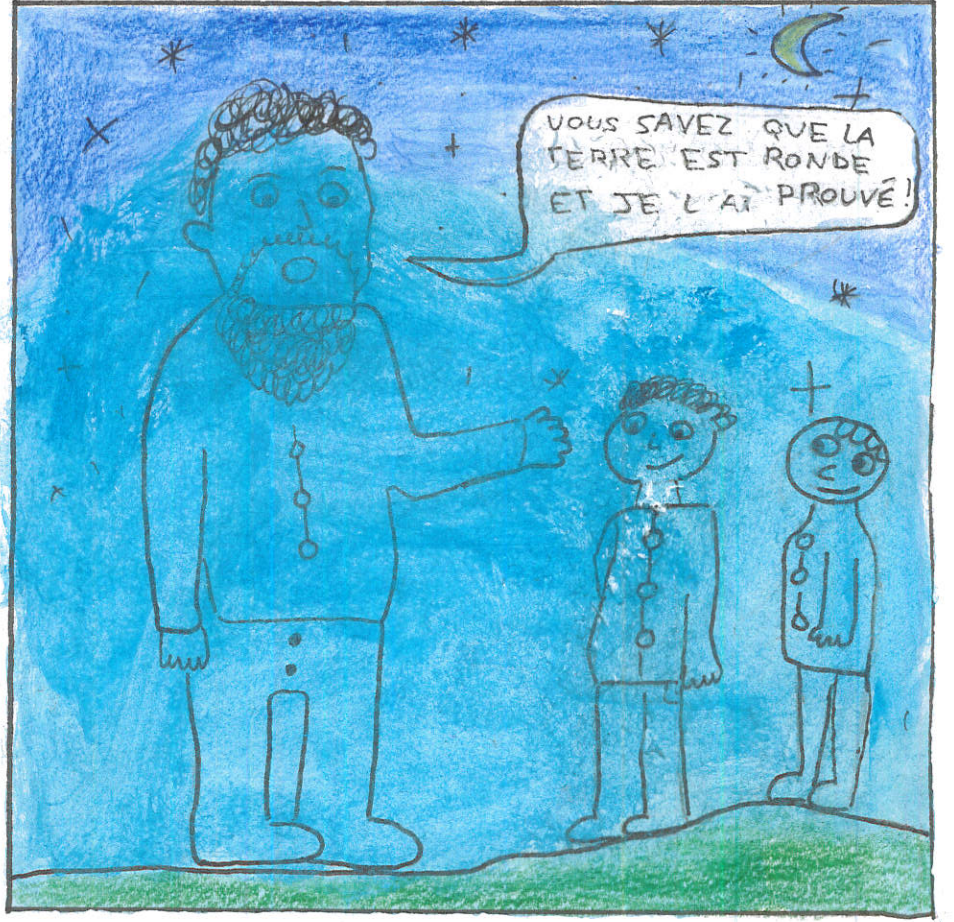

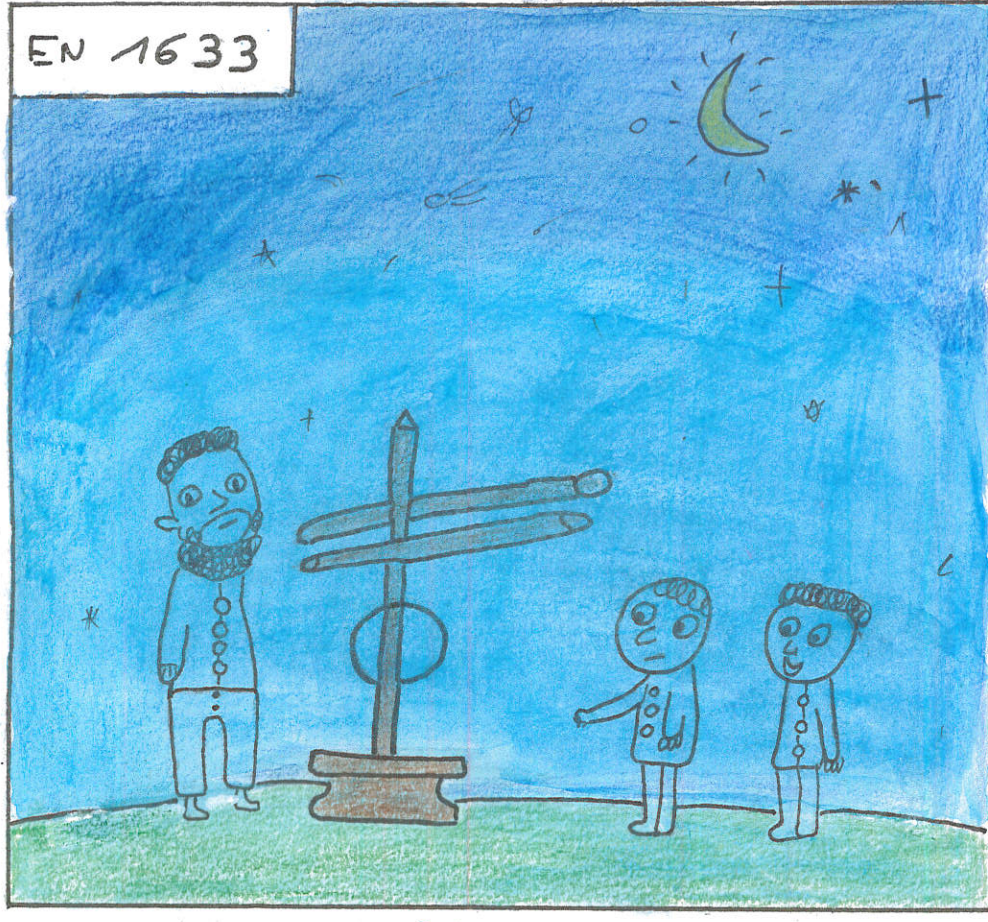

VEUX TU  
ETRE MON  
AMI ?

JE SUIS SI PETITE  
JE PENSE QU'IL N'Y A  
PAS D'AUTRE PLANETE  
COMME MOI !

NON ! JE NE  
PARLE PAS  
AUX NAINES

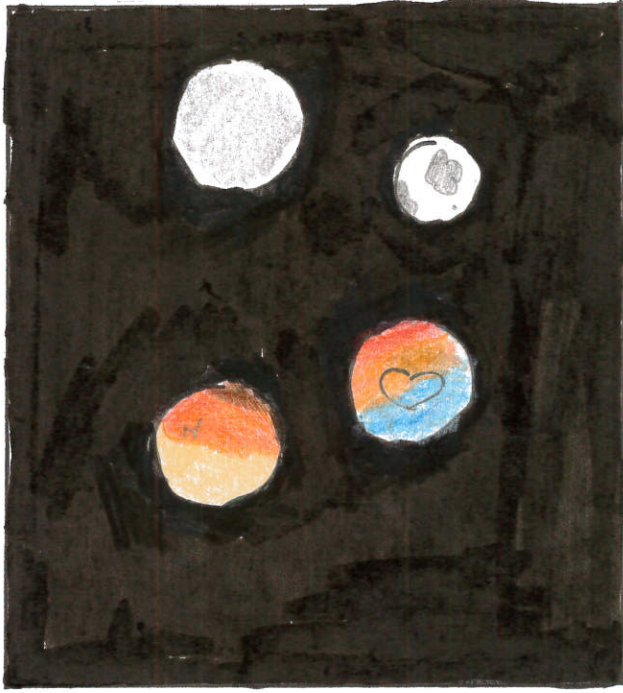

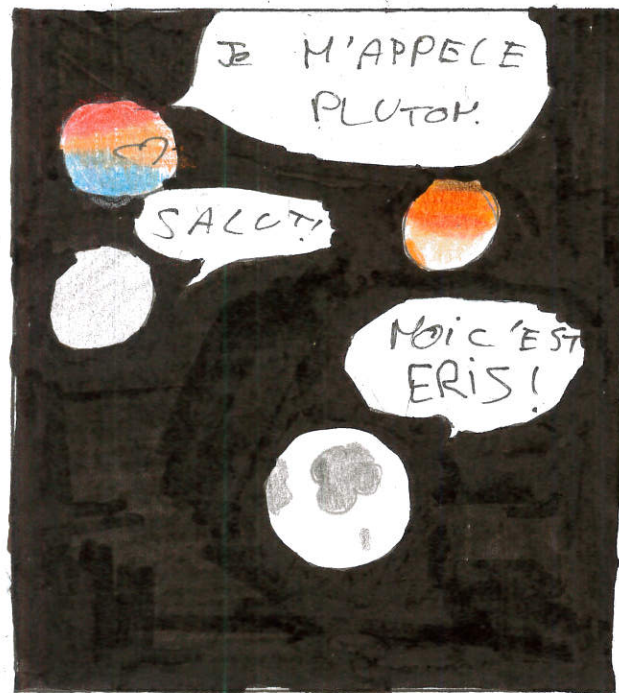

SALUT ! MOI  
C'EST HAUMEA

C'EST  
SPOUTNIK  
UN ENORME  
GLACIER

C'EST JOLI !

C'EST QUOI  
CE JOLI  
COEUR

VIENS JE VAIS  
TE PRESENTER  
MAKEMAKE ET  
ERIS !

JE M'APPELE  
PLUTON.

ON PEUT  
DEVENIR  
AMIS

SALUT !

Ouais !

MOI C'EST  
ERIS !

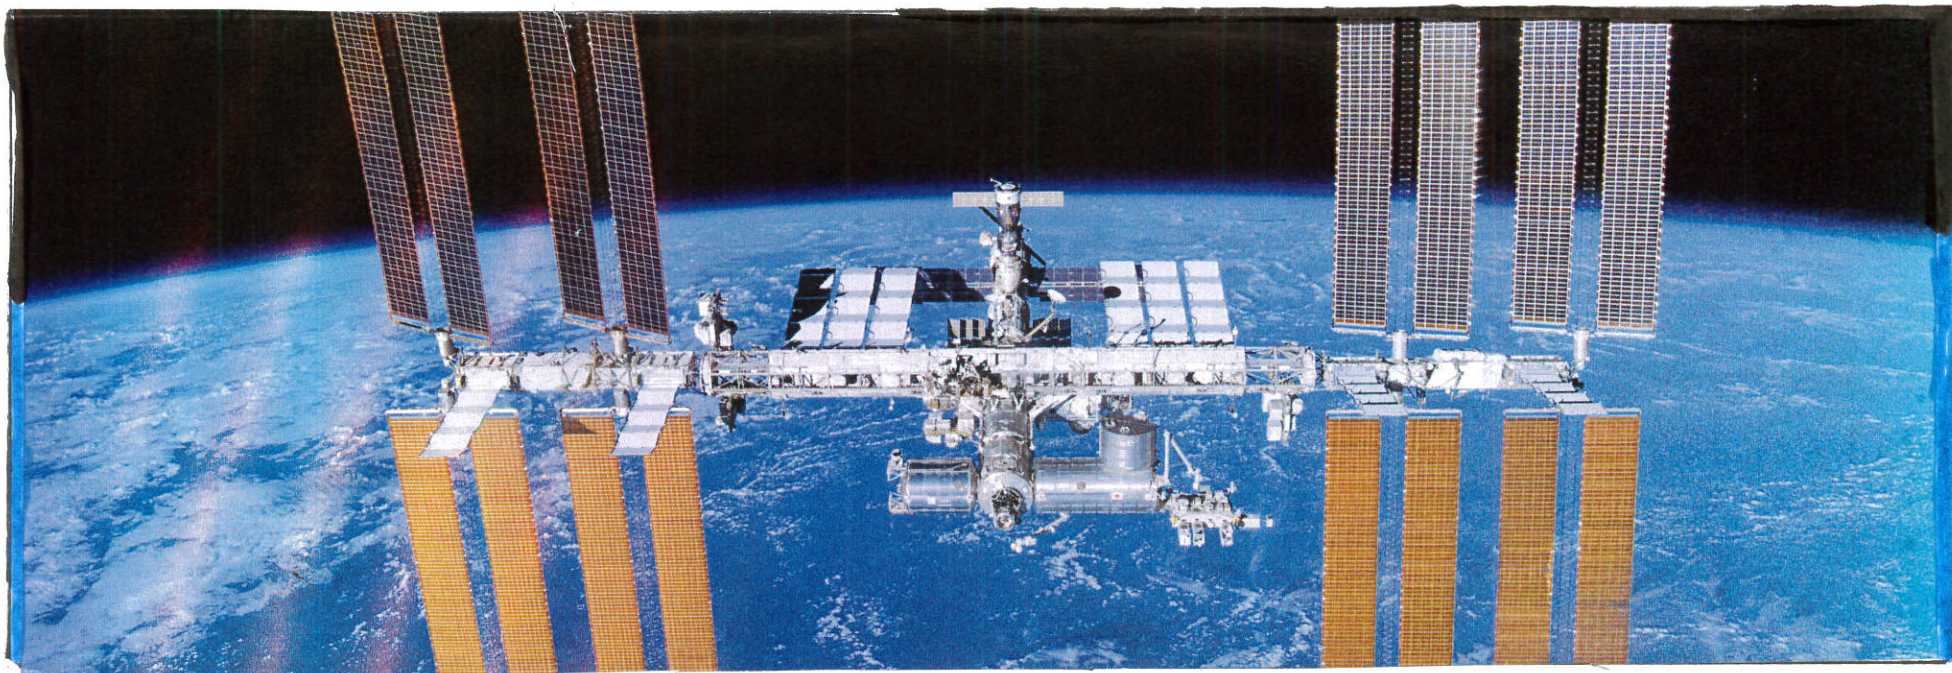

VIEN !  
IL Y A UNE FÊTE  
TOUT AU FOND  
DU SYSTEME SOLAIRE

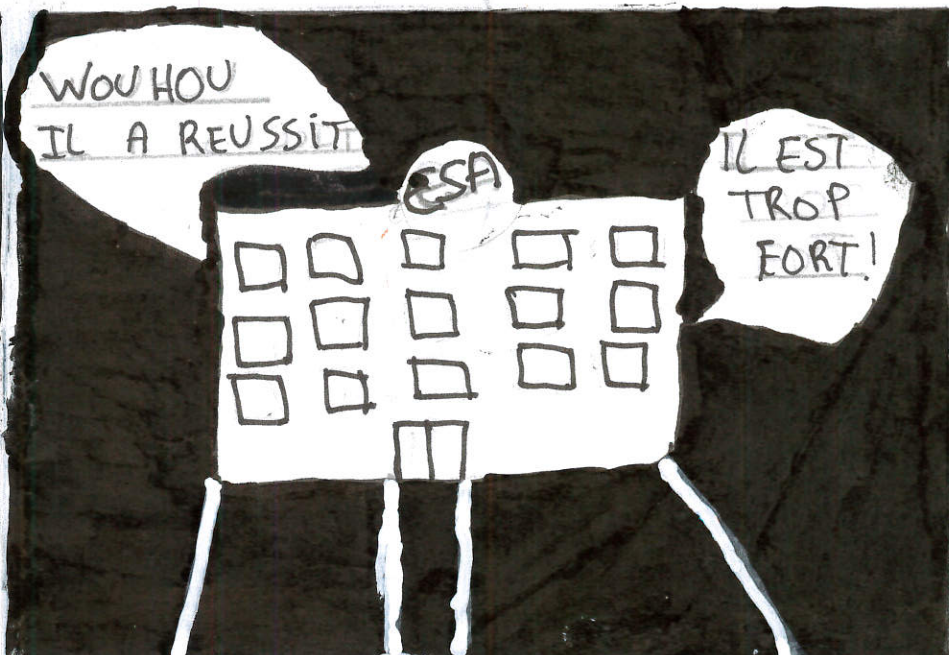

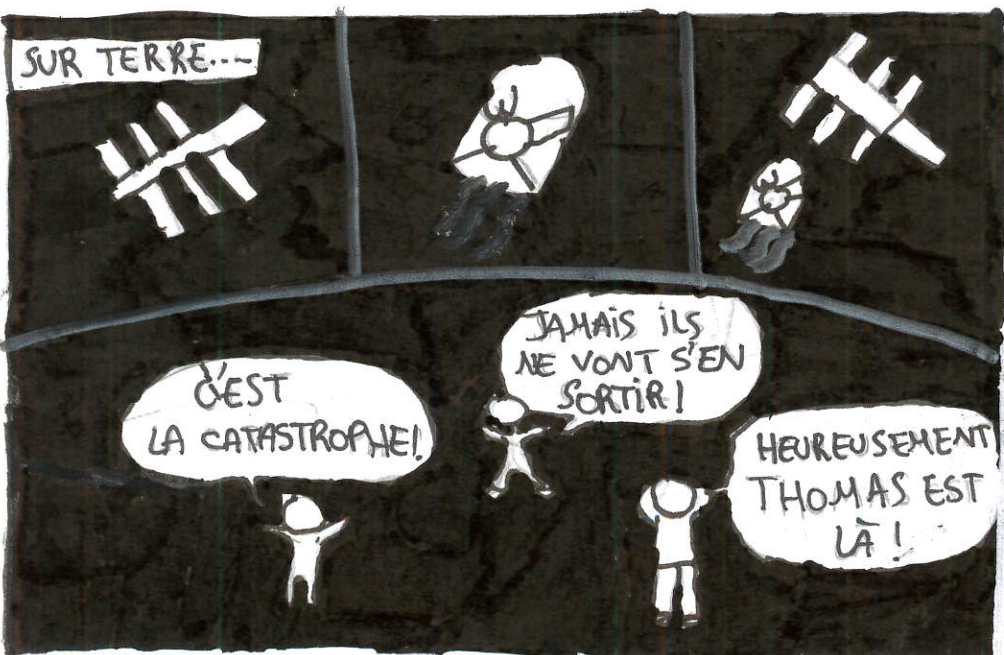

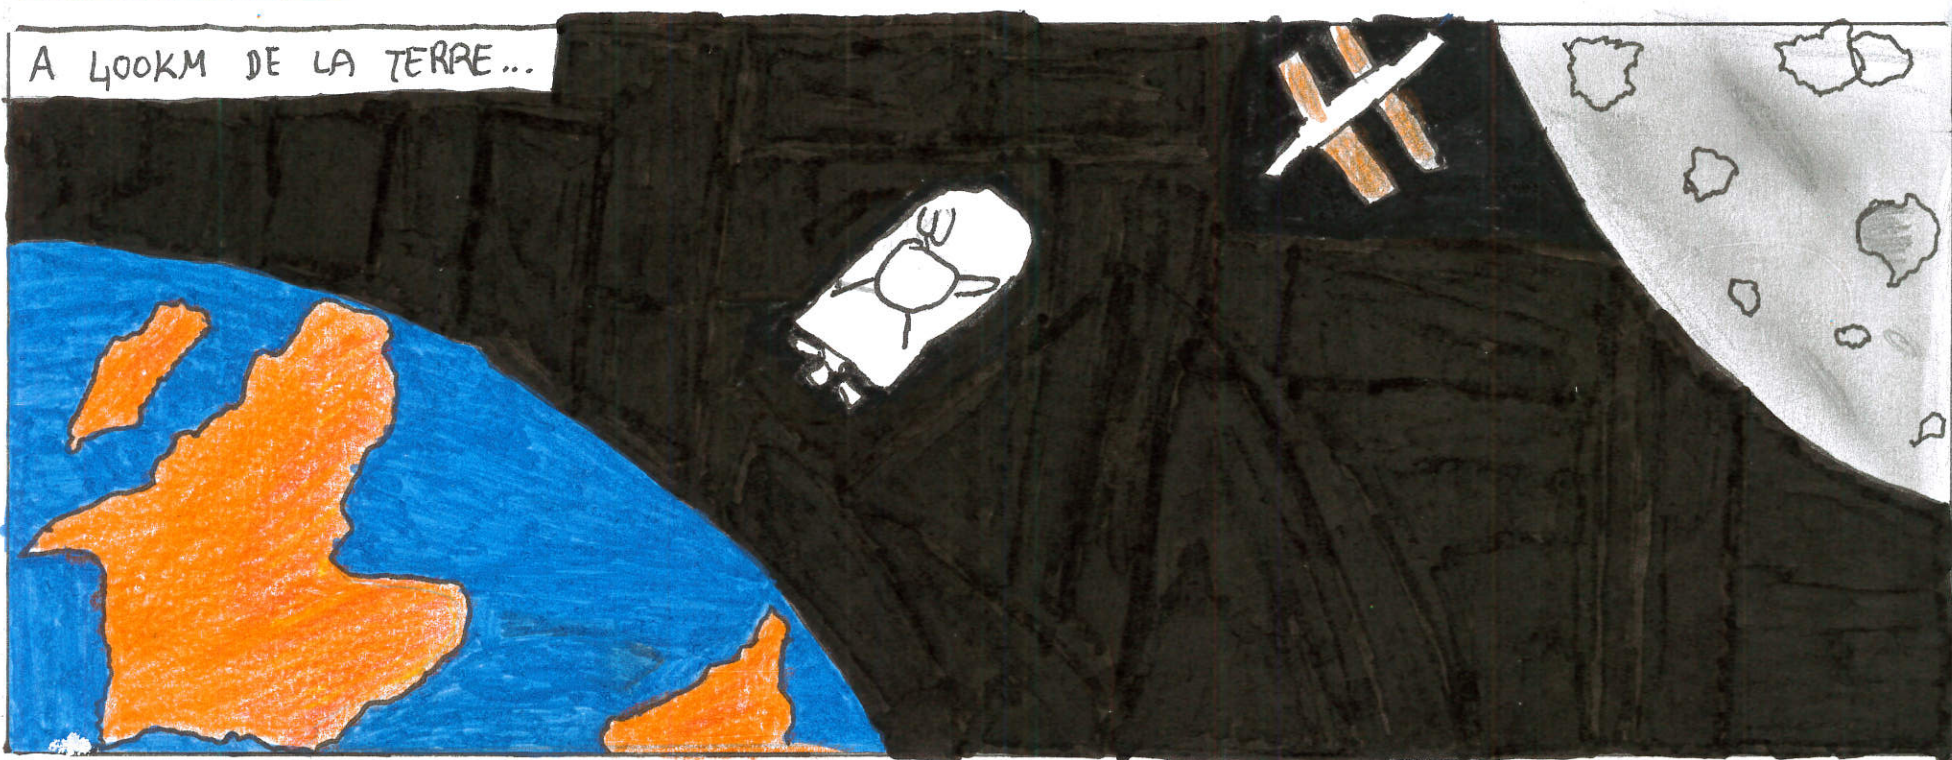

Plus tard DANS LA  
CEINTURE DE KEPLER  
PLUTON RETROUVE D'AUTRES  
PLANETTES NAINES,  
Des comètes et  
DES ASTEROIDES.

Je me sens  
Beaucoup moins  
SEULE SUR  
CETTE ORBITE.

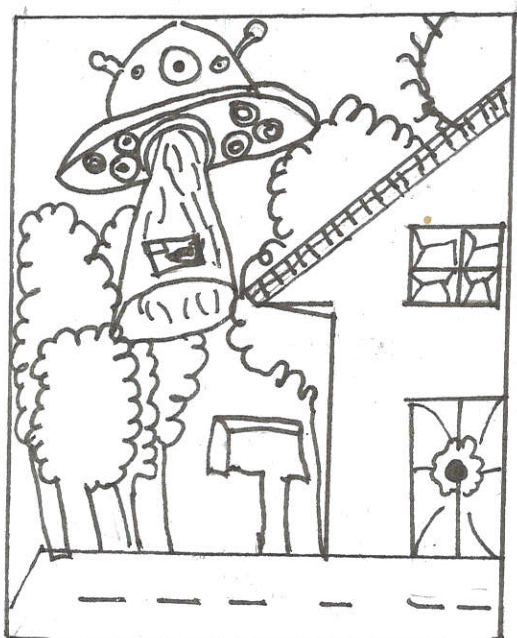

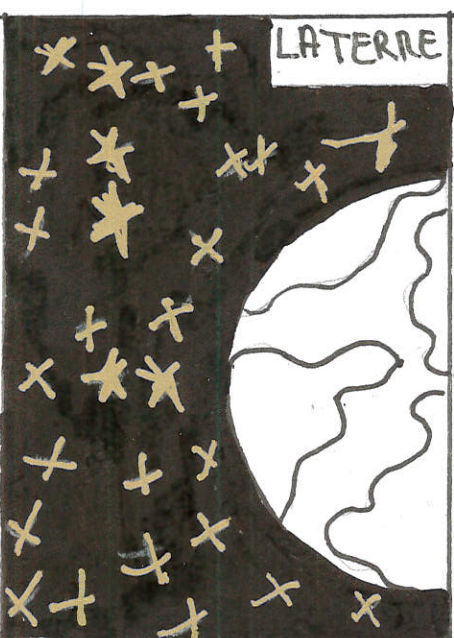

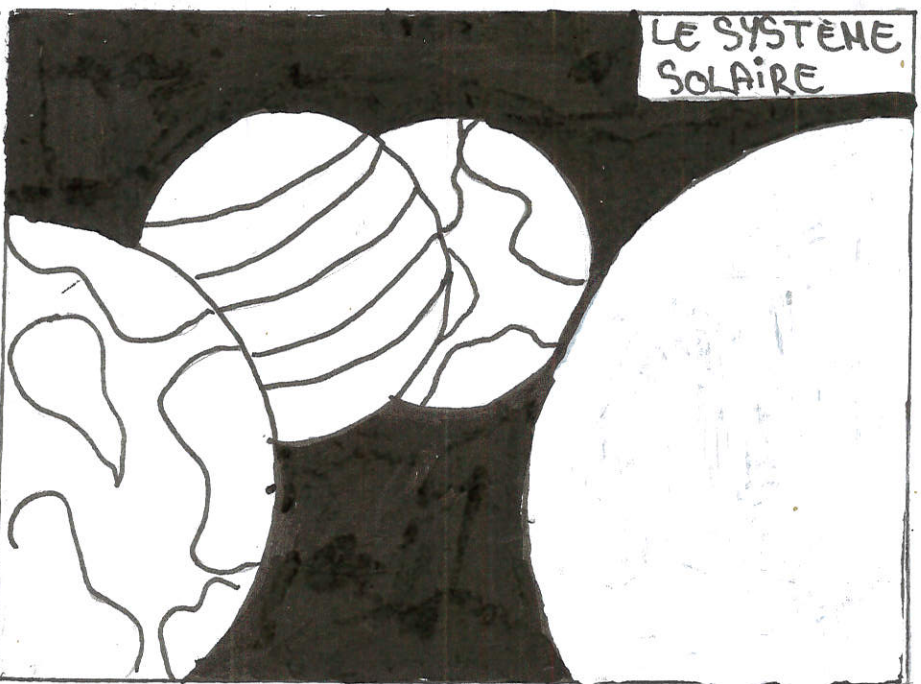

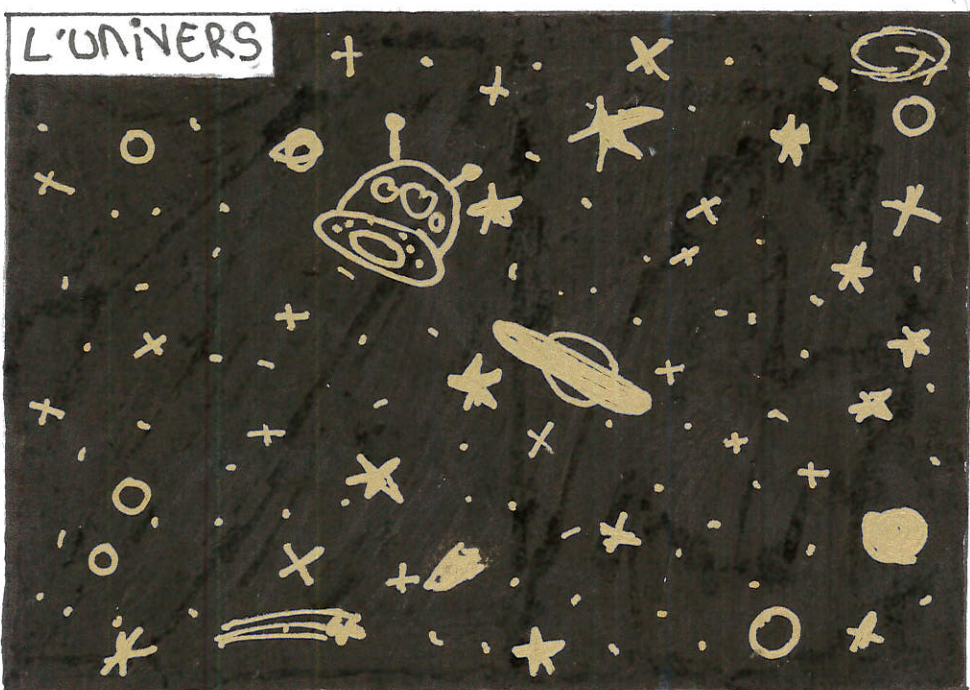

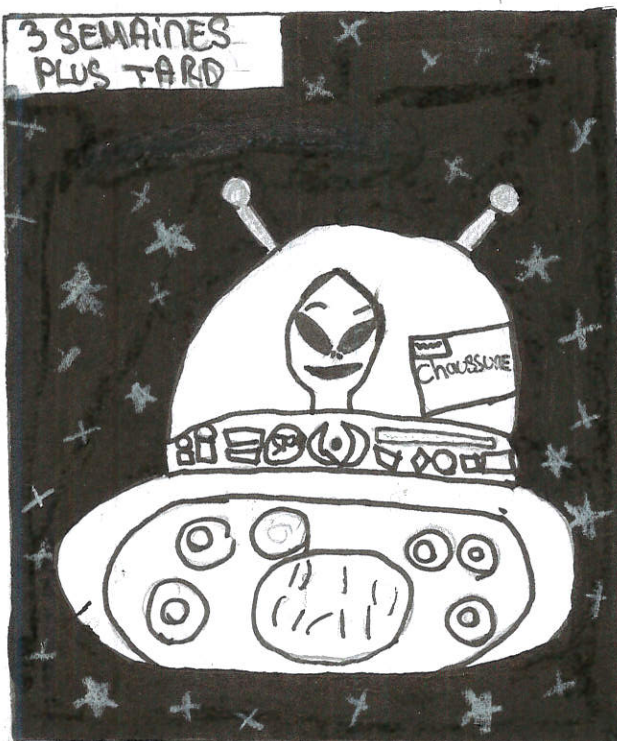

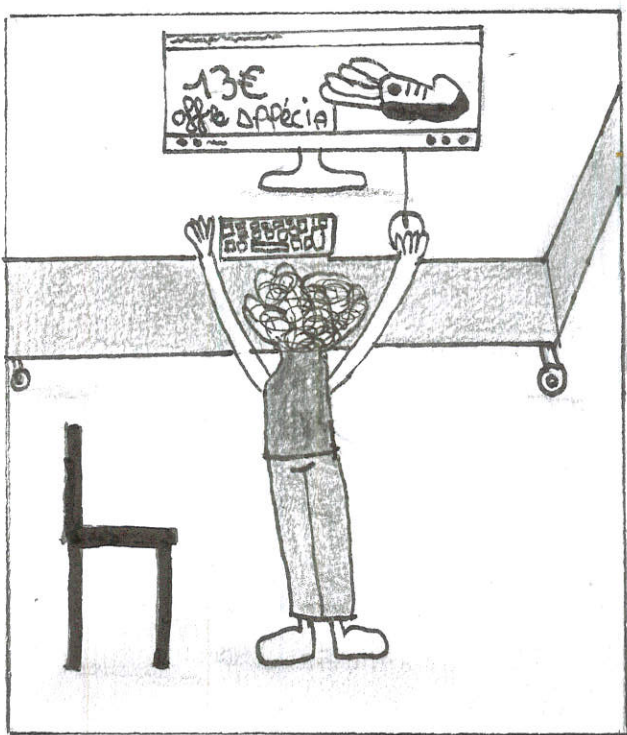

A 400KM DE LA TERRE...

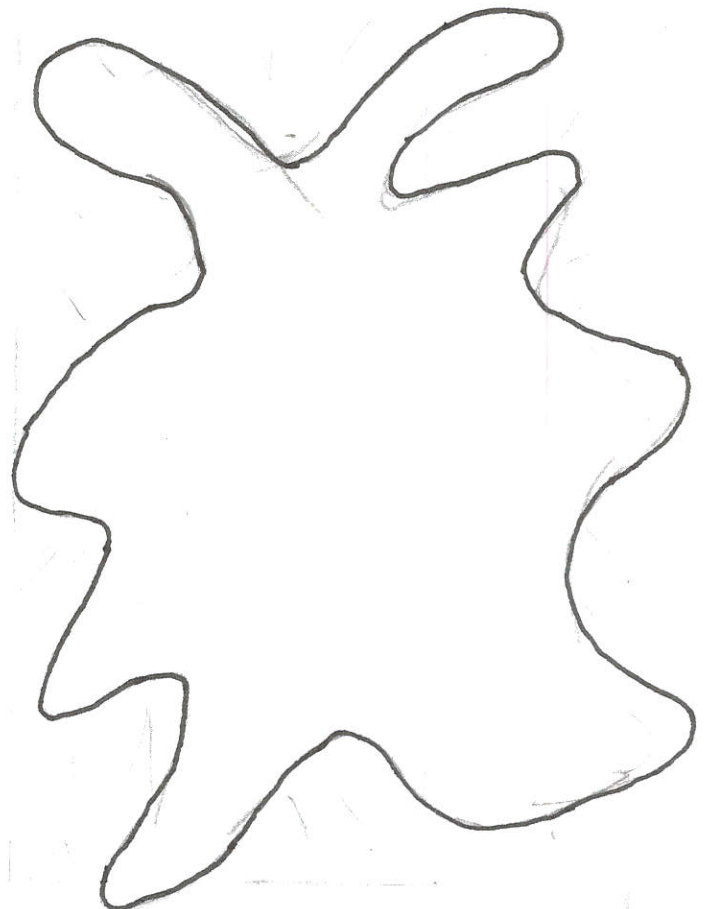

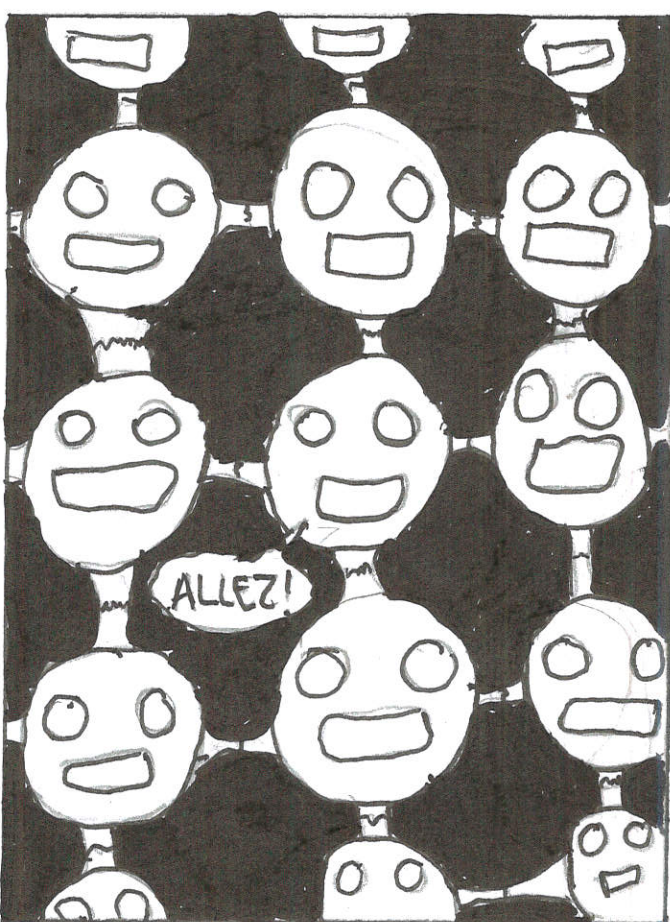

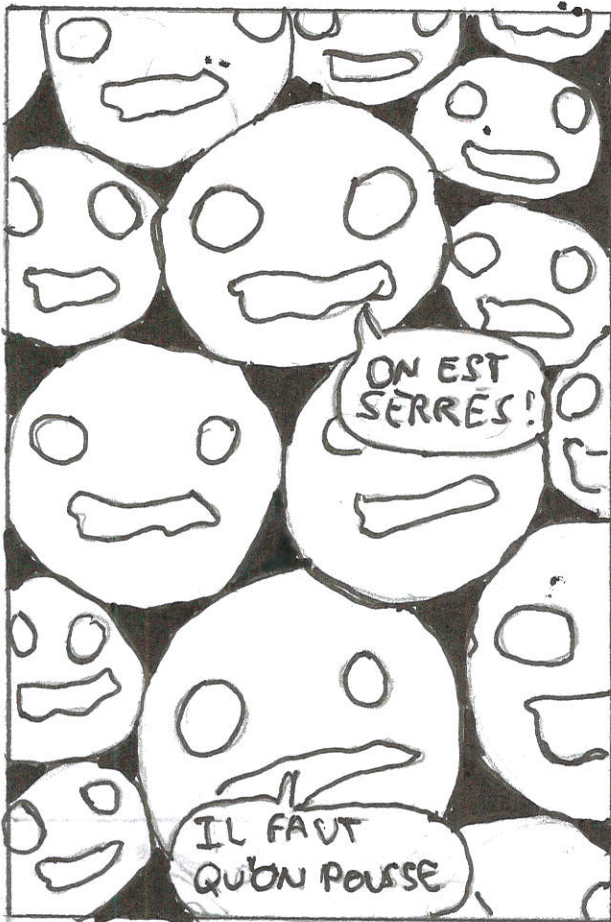

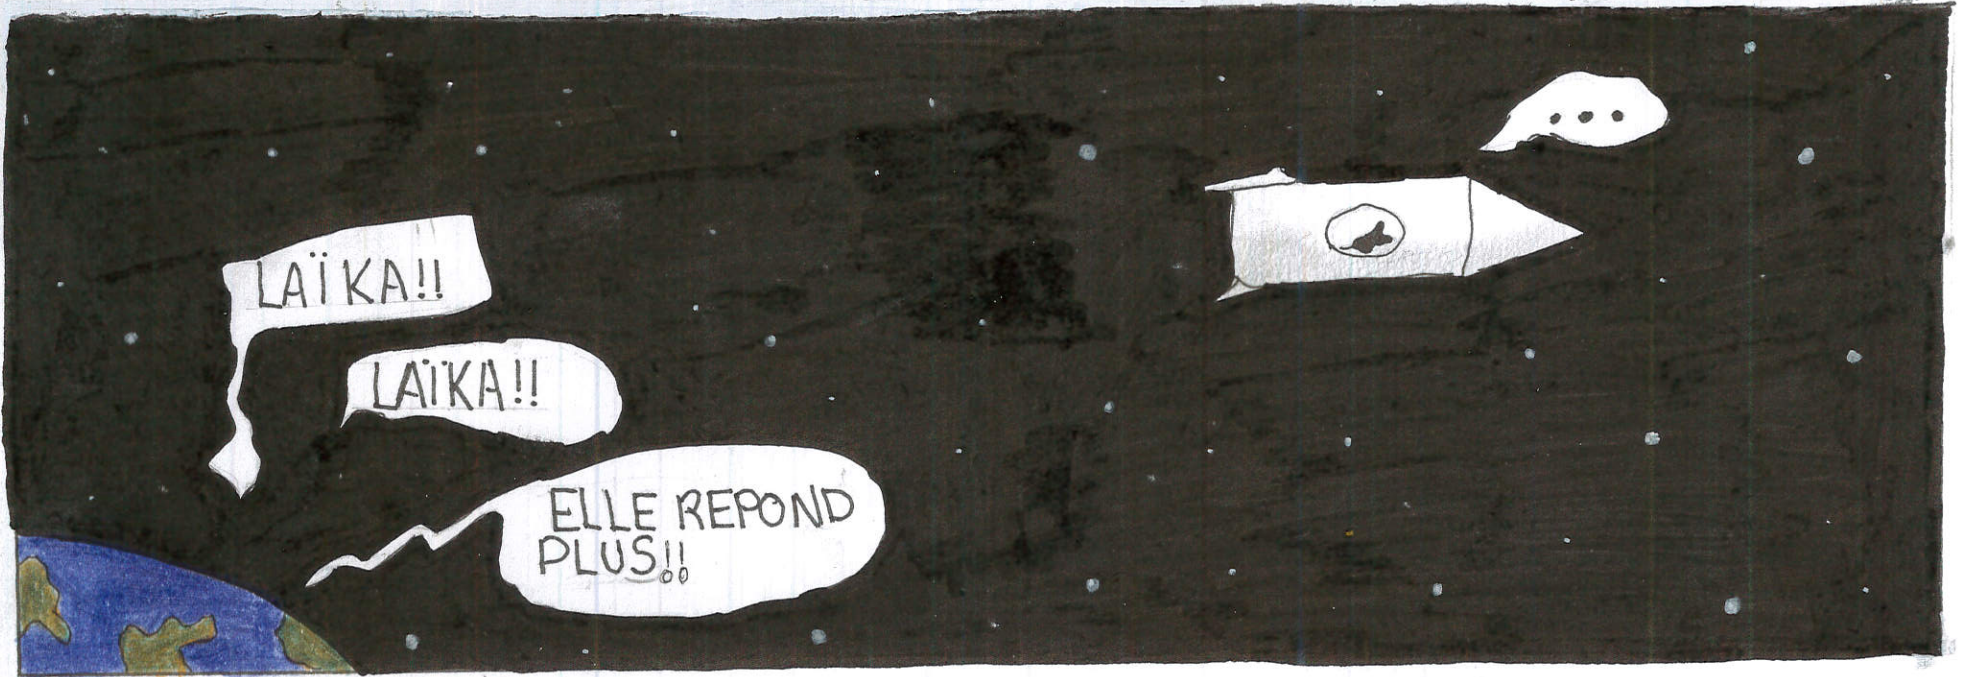

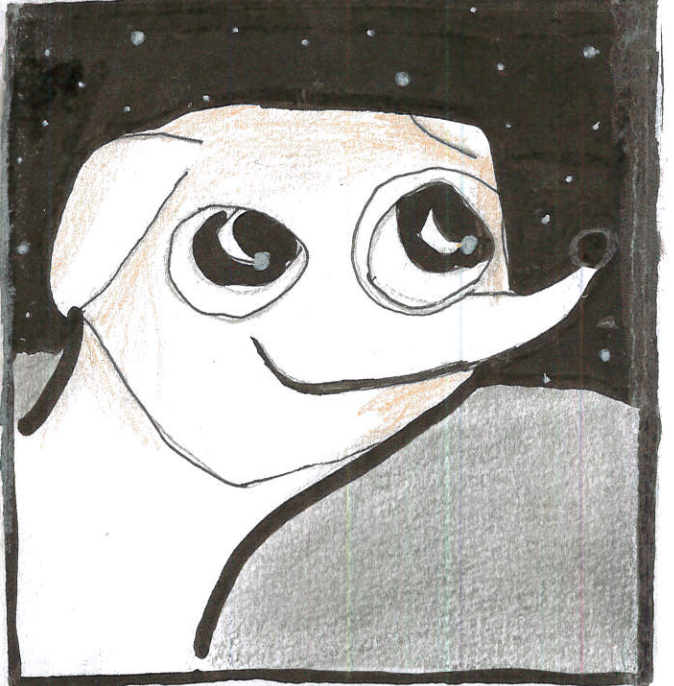

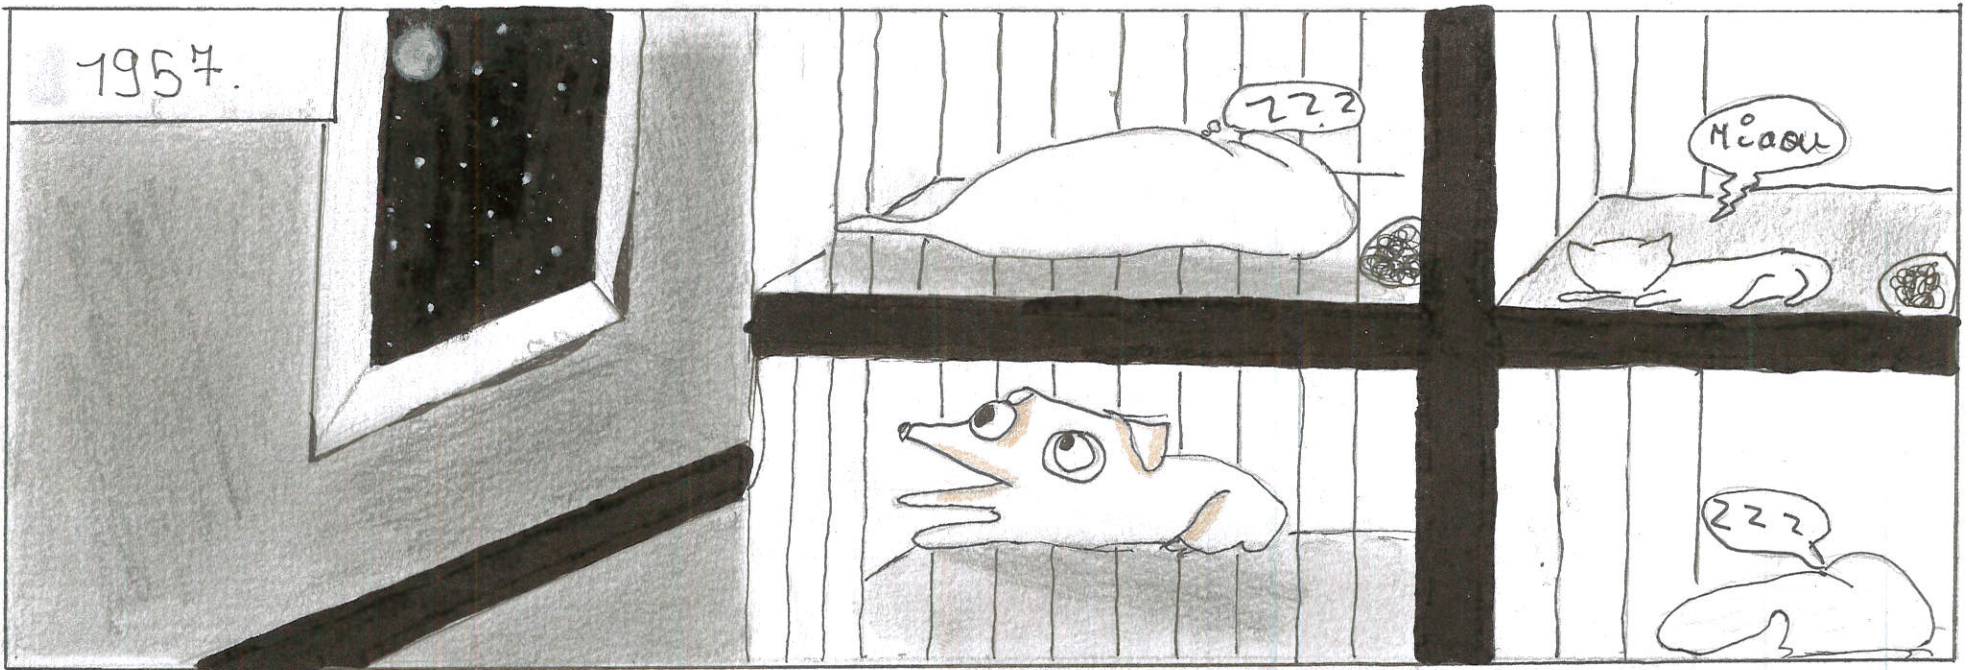

IL Y A 13,8 MILLIARD  
D'ANNÉES, L'UNIVERS  
ETAIT PETIT COMME ÇA !

AUJOURD'HUI IL EST IMMENSE  
MÊME PEUT-ÊTRE INFINI ET EN EXPANSION

juillet 1969
